

Step Therapy Program

Effective: December 1, 2023

FirstCarolinaCare requires “Step Therapy” for certain prescription drugs.

In most cases, step therapy requires that you try certain medication(s) (preferred medications in the same class, first-line treatments or less costly alternatives that are also recommended for your condition) before a step therapy “non-preferred” medication would be covered.

Example: Drug A might only be covered if a member has tried Drug B with a poor response or intolerable side effects. A trial of Drug A may not be required if there is a medical reason that a member is unable to try Drug A or cannot change from current therapy with Drug B.

For an exception to the step therapy program or to request a written copy of the coverage criteria, please contact FirstCarolinaCare Member Services at (855) 291-9336 for TTY users, 711, 8 a.m. to 8 p.m., local time, seven days a week. From April 1 – September 30 voicemail will be used on weekends and holidays.

This list is subject to change.
