

Did you know you can have your premium automatically deducted from your monthly Social Security or Railroad Retirement Board (RRB) benefit check?

The Social Security/RRB deduction may take two or more months to begin after Social Security or the RRB approves the deduction. In most cases, if Social Security or the RRB accepts your request for automatic deduction, the first deduction from your Social Security or RRB benefit check will be for the next month's premium after your withholding request is approved. If Social Security or the RRB does not approve your request for automatic deduction, we will send you a paper bill for your monthly premiums.

To set up your deduction, please select the checkbox with the appropriate benefit:

Social Security

Railroad Retirement Board
